Microservices made this **POSSIBLE.**

Who has a
MICROSERVICE ARCHITECTURE?

Who **WANTS TO HAVE** a
microservice architecture?

“You probably already have a
microservice architecture
whether you want one or not”

CHANGE

Technology

Technology, **scale**

Technology, scale, **organization**

How can a microservice architecture **HELP?**

EVOLUTIONARY architecture

organized around **CAPABILITIES**

MORE than (just) architecture

Architecture, **DEVOPS**

Architecture, devops, **CULTURE**

Architecture

Atomic **COMPONENTS**

HARD to get this right

Here is an event ticket

**Portland Timbers at
Sporting Kansas City**

Sat, Jul 1, 6:00PM - Children's Mercy Park

1430204621781551

Hart, Andrew
2017 Season Ticket Holder

SECTION	ROW	SEAT	PRICE
F4ADA	2	8	255

TERMS AND CONDITIONS

This Ticket is a revocable license for Holder to attend the Event in the Venue, which may be revoked, and admission refused anytime upon returning the purchase price. Venue reserves the right to revoke and/or accept Holder without a refund for any violation of Venue or Event rules, disorderly conduct, or resale or attempted resale of Ticket. In the event of cancellation of this Event, Venue shall not be required to issue a refund provided that Holder is given the right, within twelve months of the date of the original Event, to attend a rescheduled performance of the same Event or to exchange this ticket for a comparable ticket to another similar event as designated by Venue. **HOLDER VOLUNTARILY ASSUMES ALL RISKS AND DANGERS** of personal injury including death, lost wages and all other hazards arising from or related in any way to this live Event, whether occurring prior to, during, or after the Event. Holder releases Venue, Event promoter, MLS (or other league) and their respective affiliates, owners and representatives from any claims related to the Event. This ticket may not be used for advertising, promotional or other trade purposes without the written consent of Venue. Holder grants to Venue and, in Venue's sole discretion, Venue's affiliates, sponsors, and partners a non-exclusive, perpetual, unlimited, royalty-free, transferable license to utilize Holder's image, likeness, or voice in whole or in part via any media for any purpose, commercial or otherwise, without compensation. Holder agrees that any transmission of Event content, including the description, video or images of Event, must be for non-commercial purposes and that, upon such transmission (including via social media or internet), Holder grants to Venue a non-exclusive, perpetual, unlimited, royalty-free, transferable license to such content.

ALL THE SEATS

30-50MB XML (SOAP) messages
+
Dynamically Typed Python Libraries
=

SeatGeek's first steps with

.NET Core

17:16 **Eric Waller** 193,338 lines of auto-generated C# (edited)

20:42 **Cody Wright** Nice. A lot of work to get it to compile?

22:08 **Eric Waller** Not really, it turns out MS released a tool specifically For generating WCF clients for dotnet core

It's using soap/xml though, not the binary format

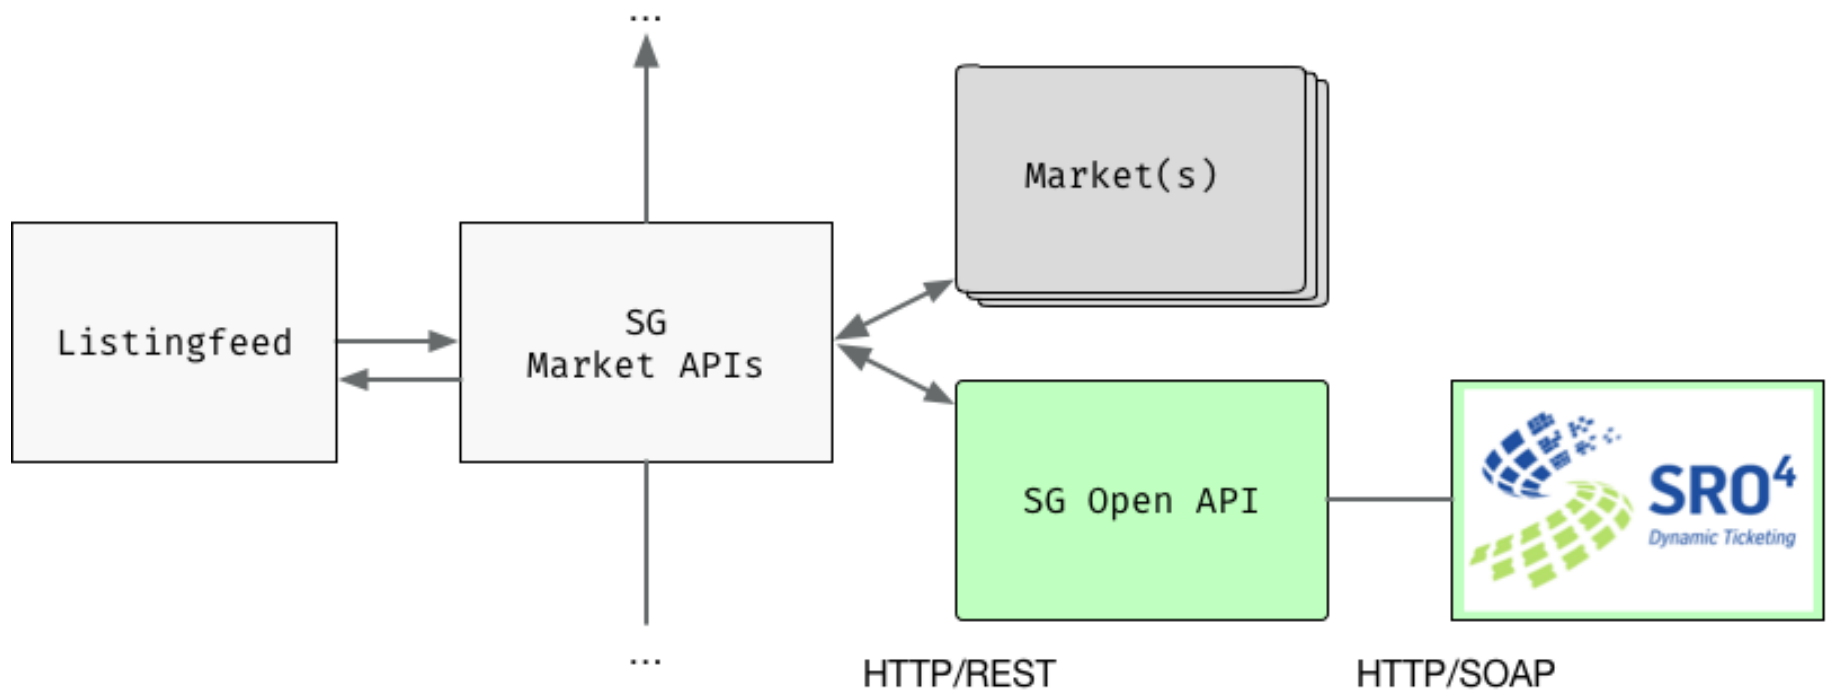

I started looking into it after messing around with the large response handling in zeep

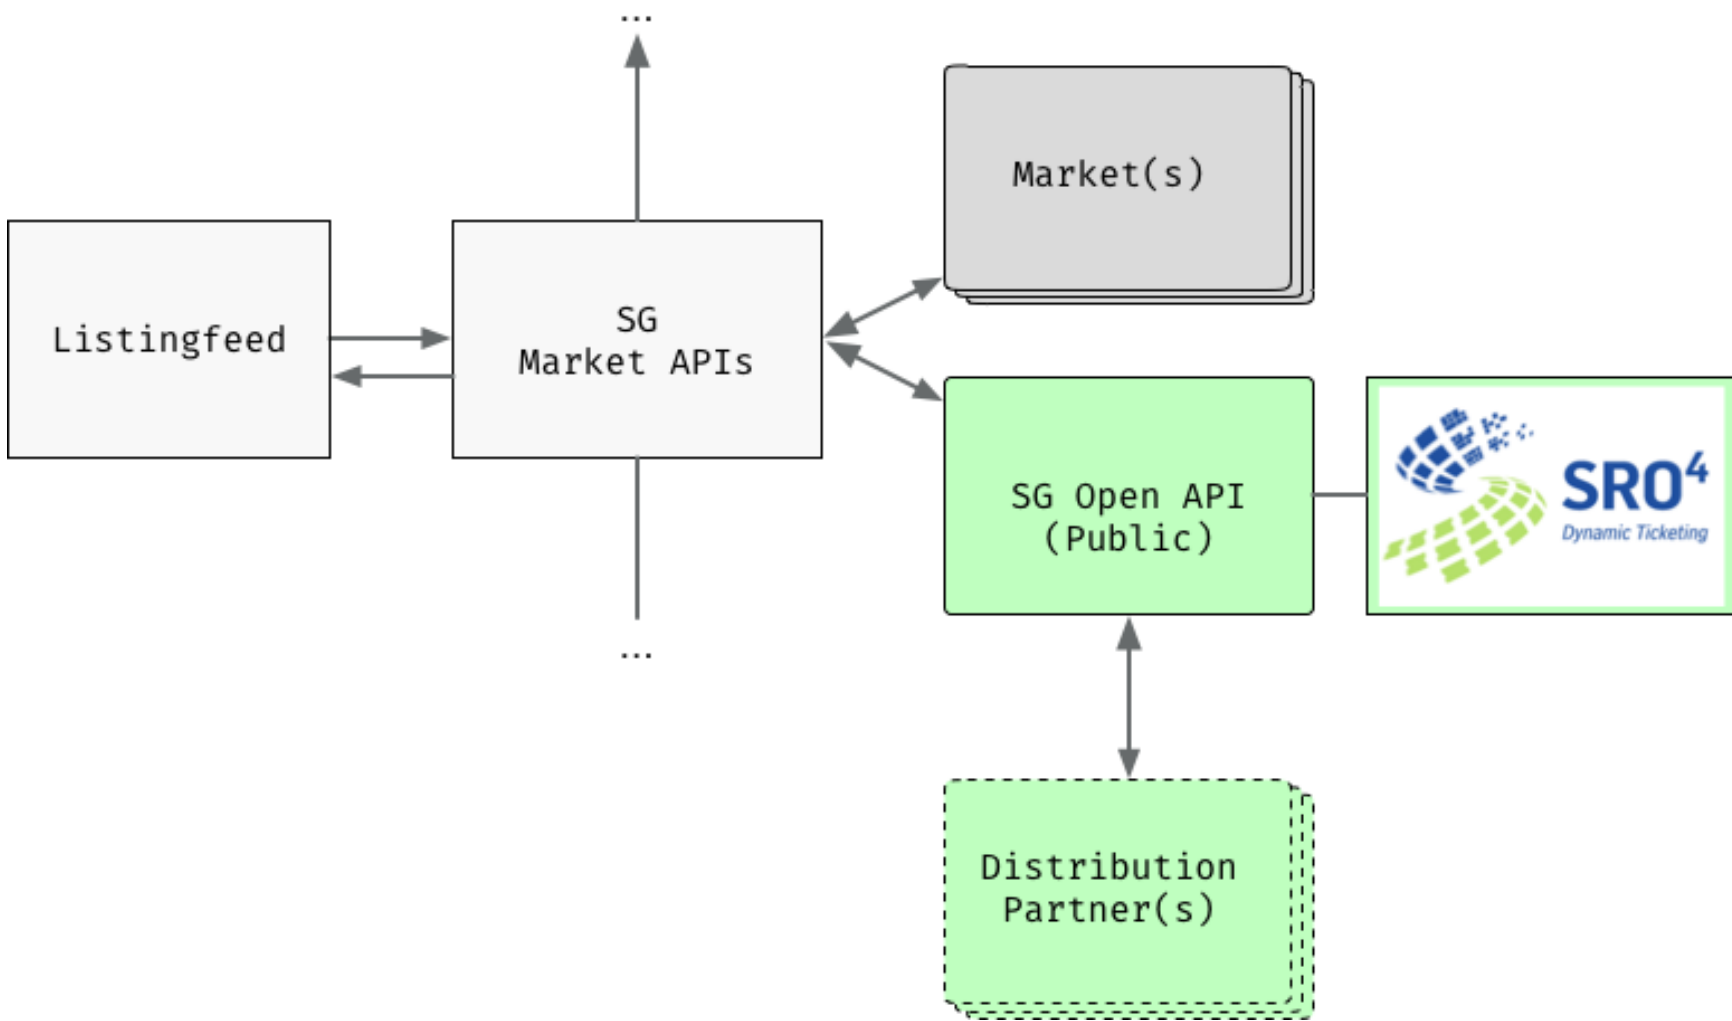

After realizing that no matter what you do, parsing 50MB of XML is going to be painful

ENCAPSULATE the SOAP

Encapsulate the SOAP,
INTERPRET the messages

Encapsulate the SOAP,
